SPA SERVICES

Facial

24K Gold Age-Defying Facial

Combining collagen and elastin boosting actives, this indulgent, age-defying facial features potent ingredients like mogra, Queen of Jasmynes, and 24k gold that penetrate the dermal layers of the skin, renewing and regenerating skin cells for long-lasting results. Oxygen is infused into the skin on a cellular level to create a lustrous glow while reducing fine lines and wrinkles. This treatment also addresses emotional needs such as stress, anxiety, hormonal imbalances, and sleep issues like insomnia to create inner bliss that radiates.

Gentle Tide Facial

For the skin purist. Organic algae, essential oil-free phytonutrients, and pure botanical oils restore important vitamins and minerals directly into your skin. Fragrance-free formulations nourish, clarify, and replenish to uncover an impeccable complexion.

The Custom Facial

Indulge in a personalized skin ritual that exfoliates, hydrates, tightens, and protects to provide an instant lifting effect. A potent combination of active ingredients and a specialized sequence of massage techniques instantly transforms the skin.

Soothe and Enrich Advanced AntiOxidant Facial

A restorative treatment designed for dry, sensitive, or damaged skin, this calming facial uses a vitamin-rich serum to deeply hydrate and potent antioxidants to fight free radicals to reduce redness, inflammation, and protect the skin from the visible signs of aging. The facial Marma massage uses gentle pressure across the Marma points to deliver an active serum that increases collagen and hyaluronic acid production, before a botanical hydration mask locks moisture into the skin. You'll leave this restorative treatment with smooth, luminous skin that is vitamin-enriched and deeply hydrated.

Vitamin Sea Radiance Facial

When sun damage has taken its toll, or you simply want to brighten your complexion naturally, this restorative facial delivers a radiant all-over glow. Gentle resurfacing whisks away dry, damaged skin, and a customized mask targets dark spots and speeds up healthy skin regeneration to restore skin to its natural splendor.

The Lift Facial

Our ultimate, age-defying facial therapy combining transformative clinical grade products, Remodeling Face Machine technology, and sculpting massage techniques which dramatically tone, tighten and reshape the facial contours. An ideal selection for those seeking intensive skin regeneration and a non-surgical lifting result.

The Custom Facial with Remodeling

Enhance your Custom Facial with the toning, tightening, and resculpting benefits of Biologique Recherche's renowned Remodeling Face Machine. Sculpting massage techniques and bio-electrotherapy combine to dramatically reshape facial contours and rejuvenate the skin. The Remodeling Face Machine uses four different currents to create immediate and long-lasting results. Wider-looking eyes, more pronounced cheekbones, less visible wrinkles, and a sculpted visage are just some of the exceptional results of this powerful treatment. Electroporation makes the epidermis more permeable so active ingredients can penetrate skin cells for maximum results. A high-frequency current revitalizes the epidermis while a low to mid-frequency current tones and reshapes. Galvanic current helps active ingredients in serums and products absorb deeper into the skin.
